Recommendations

Generated by fixed, rule-based checks against this scan's results — not an AI model.

[HIGH] Add ALT text to images

20 of 21 images (95.2%) are missing ALT text. ALT text helps accessibility and lets search engines understand image content.

[MEDIUM] Adjust meta description length

1 page(s) have a meta description outside the recommended 50–160 character range.

[MEDIUM] Improve slow-loading pages

5 page(s) took over 1.5s to respond. Slower pages tend to have higher bounce rates and can be down-ranked.

[LOW] Expand thin content

2 page(s) have fewer than 300 words of visible text. Thin pages tend to rank worse — consider expanding the content or consolidating with a related page.

[LOW] Set explicit image dimensions

6 image(s) have no width/height attributes, which can cause layout shift while the page loads. Set explicit dimensions on <img> tags.

Page Findings Summary

URL	Status	Title	Words	Issues
https://deluxesalon.in/	200	Deluxe Saloon — an ambient street-c	159	3
https://deluxesalon.in/playlists/saloon-classics	200	Saloon Classics — Deluxe Saloon	1060	3
